Therapeutic Community

Support. Hope. Thrive.

Let's Grow Together

The Let's Grow Together program is a community-based initiative offering one-to-one and group support for women who are pregnant and/or parenting children 0-6. The program is designed for those who have questions about substance use and how this may affect them, their pregnancy, parenting, and their children. We use a harm reduction, women-centered philosophy inclusive of abstinence.

Our Program Offers:

- A non-judgemental, confidential, and supportive environment
- Free nutritious snacks
- Individual support & weekly evening support groups
- Free professional childcare during evening support groups
- Substance use counselling and education
- Connections to community services

At Stonehenge, we recognize that there are many reasons women may use substances, and that it can be difficult to make changes without support.

If you need support, or have questions call us at: 519-222-4382
