

Support. Hope. Thrive.

## Annual Report 2021

# Building

# Hope

**Kristin Kerr**  
Executive Director

**Kevin McDermott**  
Board Chair

Building hope has never been more important than it is right now. We have all had to navigate extraordinary circumstances this past year, and at Stonehenge that included changing and enhancing our existing services and developing new ones, all while responding to the surge in demand for service and the increasingly complex needs of those we serve.

In our 2021 Annual Report, we would like to acknowledge and grieve for all we have lost during the pandemic, and at the same time celebrate everything we have accomplished together with our staff team, community partners, and clients. We are deeply grateful for, and proud of our staff who have been remarkably adaptive, responsive, and resilient this past year – all while ensuring they were there in person, every day for those who needed them.

As we look to the year ahead, we know our community will continue to feel the impacts of the pandemic and Stonehenge is committed to continuing to build hope with all of you.

# BUILDING HOPE

The community here does not judge me, I believe in Stonehenge. The staff shares the power of learning, and that gives me hope.

Client

In order to keep services open, our team incorporated trailers for the required 14 day isolation period. As a result, our ability to provide service never stopped.

Kayla, Clinical Manager, Residential Services

Despite an ever changing environment during 2020/21,

**91%** of our residents reported achieving their goals during treatment, demonstrating their strength and resilience.

## Rural Wellington Addiction Services

**↑66%**  
face to face client visits.

The implementation of virtual services in rural Wellington allowed us to meet more client needs, better.

I can relate to folks who are experiencing substance use disorder and the barriers to service that exist. I want to advocate for everyone I support, because when you are seen and heard without judgement, you are empowered and motivated to hope for the future. Doing this work is part of my own wellness journey.

Regan, Peer Outreach Worker

## Community Withdrawal Support Services

**↑38%**  
in service over last year.

**100%** of clients felt supported in their well-being, withdrawing at home and meeting their withdrawal goals.

**88%** of clients were connected with primary health care as a result of their involvement with the RAAM.

## PEER2PEER

Across Ontario, we experienced a 60% increase in fatal overdoses this year.

Our **Peer Recovery Coach** at Cambridge Memorial Hospital provided **support not stigma** to

**121**  
people in this hospital alone.

Our region has 6 hospitals.

I tell people all the time, that if I could live anywhere in the world it would be in this very place. I am so full of gratitude for my place in this program.

Client

**100%** of transition house clients said a stable place to live allowed them to make safer choices about substance use and focus on their relationships, self-care and recovery.

**Over 85%** of clients reported experiencing better mental health having a safe place to call home.

## Residential Services

Change is a process,  
not an event.

## Community Services

Reaching out with the right service, in the right place,  
at the right time.

## Housing Services

Yes in my backyard! Everyone has the right to  
a safe and affordable place to live.

**365**

Days we provided **IN-PERSON SERVICE**  
during the **PANDEMIC**

**1,452**

**TOTAL PEOPLE SERVED**  
An **18% INCREASE** over the last year

**20,169**

Number of **DIRECT CLIENT CONTACTS** provided  
A **45% INCREASE** over the last year
